### NO SHOW POLICY

As a patient here at Affordable Dentistry we value your time; therefore we must institute a firm no-show policy for all of our patients. In order to keep an organized office we must make sure you are aware of this in advance. When appointments are made we reserve time on our schedule and put resources into those appointments. When appointments are missed without notice, those resources go to waste. We will make all efforts to give you notice if we must reschedule your appointment, we hope you will do the same for us. There will be a \$50 charge for missed appointments if you do not give us a 48 hour notice in advance. If you are late by more than 10 minutes, your appointment may need to be rescheduled. If you have a history of no-shows, meaning you have no-showed more than two times we will have to collect a non-refundable \$50 deposit on all future appointments that will go toward the cost of treatment.

### **PAYMENTS FOR SERVICES RENDERED**

We understand that dental treatment does not come cheaply and the impact it can have on a family's budget. We hope to be able to work with you on these financial obligations. We accept cash, check, most major credit cards, and offer in-office financing (with approved credit).

### **CELL PHONES**

Cell phones are not tolerated in the treatment areas. If you are on the phone when the doctor is ready your appointment will have to be rescheduled. We understand that today's lifestyle is hectic and busy, so if you must make a phone call, please, do so before you come to the treatment area.

### **VISITORS**

To prevent overcrowding of the operatory, only one family member may come back with you when you are called for your appointment. For children, one parent may accompany them. For adults, one child or one adult may accompany them. The dentist and staff will not have the necessary room if you bring more than one family member.

Alternatives to removal have been explained to me (root canal therapy, cro	owns and periodontal surgery, etc.) and I at	uthorize the Dentist

the risks involved in having teeth removed, some of which are pain, swelling,	spread of infection, dry socket, loss of feel	ing in my teeth,
